Early Mail and Documents

Smitton/27 June 1832", slight staining and a little fragile. William Smitten is recorded on the crew list of the whaler "John & Edward" as being of 23 years of age and born in Waterford. †**430** ✉ 1839 (Nov.) printed prices current from Rio de Janeiro to Robert Crowgey (Accountant to the Legation of H.M. the Emperor of Brazils in London and author of "Crowgey's Universal Calculator and General International Accountant") in Liverpool with framed "SHIP LETTER/COWES", containing a fascinating handwritten detailed proposal for colonisation of the Falkland Islands in which East Falkland would belong to a Commission or Company *"to remain a noble island to which neither convict, or one that ever had been one, shall ever be allowed admittance",* West Falkland *"to be a Military and Naval Station"* whilst *"All the small islands shall be reserved for Penal Establishments exclusively". "I write you this so hurriedly because I am just informed that Mr. Lowray the late Land Governor down at Falklands is going suddenly home tomorrow"* the sender urges Crowgey to hasten publication of the proposal as, among other advantages, the plan would certainly *"overawe the French". Ten days before the arrival of the letter on Jan. 24 1840 the Colonial Land and Emigration Commission was created and in August produced a report in which the advanced development of the islands as a colony was advocated - including a penal colony.* Side flap missing but a most unusual historical document. THE FALKLAND ISLANDS PHILATELIC STUDY GROUP (founded 1970)

The Group was founded following a meeting of some 50 collectors gathered together by Malcolm Barton, a Vice President. Membership grew rapidly, reaching 125 in 1972, 220 in 1976 and is now at 380 members. The Group is truly international in its membership structure. The objects of the Group are to research into all aspects of philately connected with the Falkland Islands and their former Dependencies, leading to the publication of findings and to foster Falkland Islands philately by all means, including exchanging of information and philatelic material. Research is carried out by individual members, and is collated through a nominated leader for each subject.

A weekend meeting takes place annually in March during which displays are given, auctions and a bourse take place and an Annual General Meeting is held. Regional meetings are also held on a regular basis in various parts of the UK and in other countries, including the USA, Australia, Norway, Sweden and the Falkland Islands. Members, whether beginners or advanced collectors, are encouraged to attend.

The award winning *Upland Goose*, a quarterly journal, is distributed to all members and to leading philatelic libraries. Members 'Sales and Wants' are published with the journal without charge.

Two auctions of members' material are held each year, one a postal auction and the other live at the weekend gathering. Other material surplus to members' requirements is available through a popular circulating packet, limited because of insurance constraints to subscribers within the UK.

FIPSG is a member of ABPS and the American Philatelic Society.

Notes on References and Condition

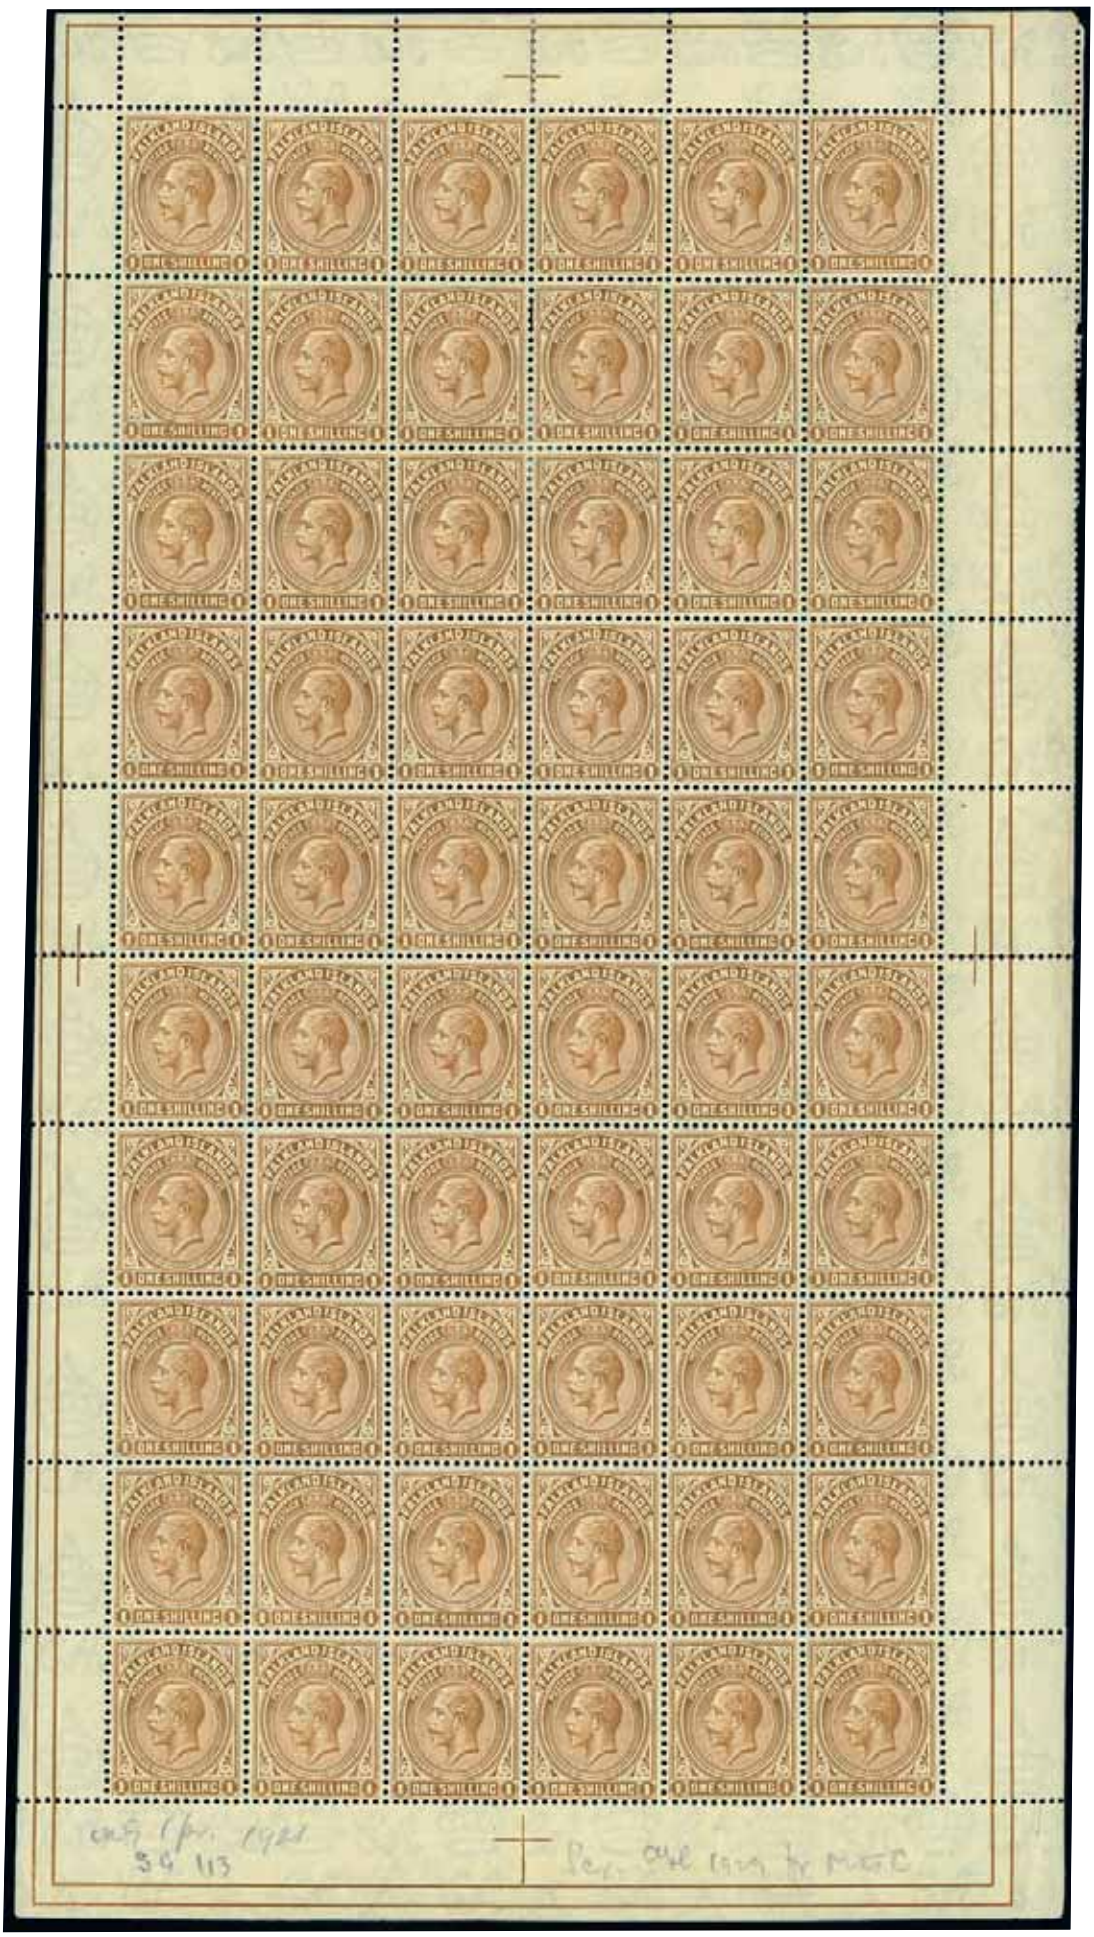

Quotations of catalogue numbers and values are taken from Stanley Gibbons catalogues, and other catalogues named in the text, current at the time of lotting. The auction contains many items that are unique or of exceptional rarity. It should be noted that all philatelic items are graded and described in relation to their condition as normally found.

Covers in particular should be expected to have minor imperfections consistent with their age and passage through the postal system and only significant faults will be described. The condition of covers will not be considered as grounds for return.

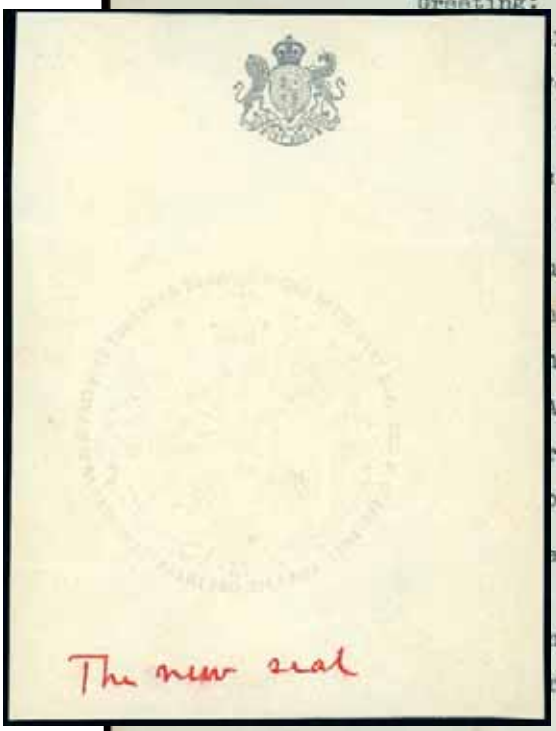

The illustration of a lot in the catalogue or on the internet is deemed to form part of its description and lots may not be rejected on the grounds of imperfections that are visible clearly from the illustration.
